## \*MemberPay (it's so unique, we're mentioning it again!)

Because Apostrophe pre-pays providers both the plan and member share, this simplifies the billing process and eliminates common areas of friction.

- Providers don't need to collect payment from members.
- Members are shielded from aggressive hospital collections and denial of care.
- Members get 0% interest long-term repayment options.
- Members and HR don't need to sort through bills to determine what's a real bill and what's a balance bill.
